

# TEXTO PARA EL TRIKE DISRUPTOR

## DENTRO DE LA SECCION DE PARATRIKES ADICIONAR ESTE NUEVO PRODUCTO.

### DESCRIPCION

Exclusive design for the DISRUPTOR paratrike. It allows you to carry excursion accessories, such as camping gear, sleeping mats, etc., for those who love adventure.

We never stop thinking about how to improve and make a trike with a more aggressive design, one that provides real passive and active safety features, making you feel like you have an aircraft to conquer the sky. That's why we present the new "TRIKE DISRUPTOR," specially designed for paramotors and especially for the DISRUPTOR PARAMOTOR.

#### WHAT INCLUDE:

1. **TUNDRA WEELS** : llantas ligeras pro muy robusta para despegue en playa o en terrenos disperejos
2. **DISRUPTOR CHSIS**: A stainless steel chassis, designed to be lightweight without sacrificing strength and safety, with everything necessary to be adapted to a paramotor.
3. **BASIC ADAPTERS**: These are the essential parts for removing the DISRUPTOR PARAMOTOR's arms and attaching the laser-cut plates and supports to house the DISRUPTOR TRIKE components.
4. **MAIN STRAPS**: Two (2) straps designed to support up to 4 tons of weight each, providing additional security; it carries a backup of straps to give two layers of security
5. **GRAVITY CONTROL SYSTEM**: Our indispensable GRAVITY CONTROL SYSTEM allows you to switch in flight from tandem to single, perfect if you ever have a friend who loves to parachute, but also very useful on the ground when you want to get into the trike

#### STANDARD CHASSIS PACKAGE WHAT'S INCLUDED

**\$4,379.50** USD

Standard — No Engine, No Propeller & No Accessories. All characteristics below are included by default in every basic trike.

##### ✓ 5-GALLON FUEL TANK

Lightweight 5-gallon tank with hoses ready to connect to the engine and the original internal filter.

##### ✓ TWO HARNESSSES

Pilot and passenger harnesses built for long flights without fatigue. The passenger travels in a fetal position for extra passive protection. Pilot sits above for enhanced visibility, with instrument access and CamelBak hydration. Single certified Cobra buckles for quick emergency exit.

##### ✓ MAIN STRAPS

2-inch main harness with a 4-turn loop to quadruple strength. Two configurations: standard below the gravity control system for lower, more accessible controls — or above for the standard industry layout.

##### ✓ MULTI-ENGINE MOUNT

Multi-sport kit requiring no additional holes. Designed for the Visionair Cosmos 300 with radiator mount. Compatible with Polini 303; alternate mounts available for Sky Engine Zeus 300 or Simonini Victor One Super.

without anything obstructing your entry.

4. PURPLE CANDY

ESTE ES EL PRECIO BASE

1. TRIKE  
DISRUPTOR..... \$  
2500 USD

Designed for those who want to fly with family and friends, and for pilots who want to transform a paramotor into a more robust and reliable aircraft, this trike easily adapts to the Disruptor paramotor and has two key attachment points: 1. at the top where the tilting arm pivot is located, and 2. on the paratrike's rear axle. These two points provide rigidity to the entire pilot and passenger cabin.

- This trike does not include harnesses; they are sold separately.
- There are several accessories you can add for a more rewarding flying experience.

## 2. **ACCESSORIES. ENHANCE YOUR FLIGHT.**

1. Disruptor Pilot seat..... 245.5

A lightweight and very compact seat with everything necessary for comfortable flight. Our goal is to keep the entire trike as light as possible without sacrificing safety and comfort.

FOTOS EN PROCESO

2. Disruptor Passenger seat..... 245.5

Harnesses designed with special attention to weight, without compromising safety and comfort.

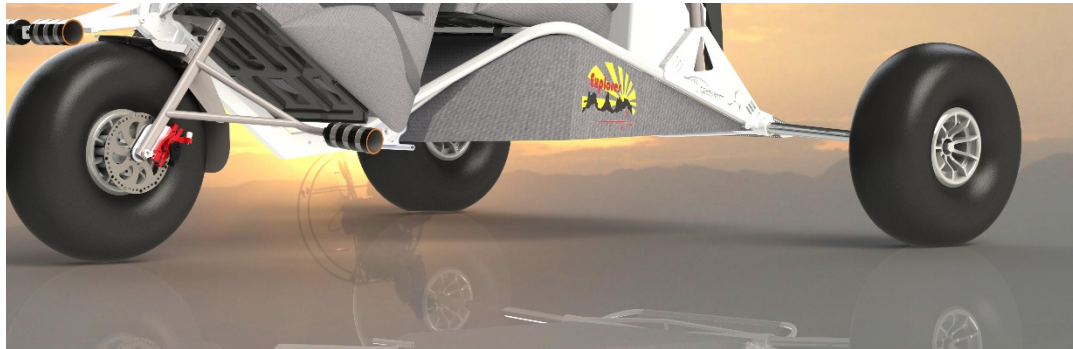

FOTOS EN PROCESO

Generally, the engine used can be 200cc or less, which provides limited thrust. Adding a trike and accessories can make takeoff difficult. That's why this line of harnesses aims to optimize weight.

FOTOS EN PROCESO

3. EXPLORER BAG..... \$125 USD

Designed exclusively for the DISRUPTOR paratrike, it allows you to carry excursion accessories, such as camping gear, sleeping mats, etc., for those who love adventure.

4. REAR MIRROR ..... \$25 USD

Essential for viewing the wing's position in its first quarter of lift during takeoff, providing precise information about the wing's position when it's behind the trike, lying flat.

**LAS FOTOS SON LAS MISMAS DEL VANGUARD O NOMADIC**

5. FRONT BRAKE..... \$120 USD

An additional cable brake provides extra braking power; this system is conventional and comes from mountain bikes.

**LAS FOTOS SON LAS MISMAS DEL VANGUARD O NOMADIC**

6. PROTECTIVE COVER..... \$105.00  
USD

A well-designed accessory to protect your trike. You can carry it on your trailer and avoid creating drag, as it only covers essential parts like the passenger/pilot cabin and engine. It does not cover the propeller ring.
